

ASTRACAREER AI: PURE SOVEREIGN SYSTEMS & ENGINEERING DOSSIER

Candidate: Kshitij Ashok Sawarkar | **DOB:** 3 November 2002 | **Lagna:** Virgo (21°) | **Mulank:** 3 (Jupiter) | **Bhagyank:** 9 (Mars)

I. FORMAL ENGINEERING & SYSTEMS EXPERIENCE (INTERNSHIPS & INSTITUTIONAL ROLES)

Wakefit Innovations Ltd Bengaluru / Bommasandra · Aug 2026 – Present
Systems & Automation Engineering Intern (Intern-PGET) *Industrial Manufacturing Operations*

- Live Deployments:** [npl-automation.pages.dev](#) · [image-sequence-renamer.pages.dev](#) · [Wakefit Repair Calculator](#)
- Embedded into manufacturing and new product development (NPL) teams to analyze operational friction and spreadsheet processing bottlenecks.
 - Architected client-side **Finished Goods (FG), NPL & BOM Schema Transformation Engine** (`npl-automation.pages.dev`), converting multi-day manual spreadsheet reconciliation into an automated recursive validation pipeline executing in sub-50ms with 100% client-side data privacy.
 - Engineered in-browser **Batch Asset Ingestion Engine** (`image-sequence-renamer.pages.dev`) to normalize media asset naming schemas, reducing asset onboarding latency by >80% with zero server compute overhead.
 - Deployed **Deterministic Repair Cost Engine** (GitHub Pages live deployment) incorporating multi-parameter pricing logic to eliminate margin erosion caused by manual human calculation drift.

Astrological Resonance: Activates 10th House Gemini Saturn (R) process governance + 2nd House Venus NB proof-of-work.

Motilal Nehru National Institute of Technology (MNNIT) Allahabad Prayagraj · Aug 2025 – Present
Graduate Teaching Assistant (M.Tech Control & Instrumentation) *Academic Department of Electrical Engineering*

- Assisting faculty in conducting undergraduate lecture modules, tutorial discussions, and laboratory experiments for 100+ engineering students in Control Systems and Instrumentation.
- Mentoring students on mathematical modeling, state-space representations, closed-loop feedback stability, root locus analysis, and hardware-in-the-loop (HIL) calibration.

Astrological Resonance: Direct manifestation of 11th House Cancer Exalted Jupiter (22°) & Mulank 3 academic authority.

All India Council for Technical Education (AICTE) Remote · May 2023 – Jul 2023
Cloud Infrastructure & MLOps Intern *AWS Cloud Infrastructure Program*

- Architected event-driven serverless data ingestion pipelines using AWS S3 bucket triggers and AWS Lambda functions, achieving ~99.9% uptime.
- Deployed and monitored machine learning model endpoints using Amazon SageMaker (XGBoost, Linear Learner) and configured optimized compute allocation across EC2 and S3 storage tiers.

Astrological Resonance: Channels 9th House Taurus Rahu Vargottama cloud scalability.

Sharon Innovations (RCOEM TBI Foundation) Nagpur · Dec 2023 – Feb 2024
IoT & Embedded Systems Intern *Technology Business Incubator*

- Integrated microcontroller sensor nodes (ESP32 / Arduino Uno) with environmental telemetry sensors, establishing low-power wireless transmission pipelines.
- Calibrated analog-to-digital sensor conversions and debugged bus communication protocols (I2C, SPI, UART) for physical prototype testing.

Astrological Resonance: Grounded in 3rd House Scorpio Ketu Vargottama hardware telemetry.

UCN Cable Network Pvt Ltd Nagpur · Jun 2022 – Jul 2022

- Assisted network operations engineers in configuring optical distribution frames, managed Ethernet switches, routers, and cable headend distribution equipment.
- Conducted signal-to-noise ratio (SNR) audits and fiber-optic link continuity troubleshooting across metropolitan hybrid fiber-coaxial (HFC) topologies.

Astrological Resonance: Foundational 1st House Virgo physical signal routing.

II. SOVEREIGN PURE-TECH VENTURES & DISTRIBUTED PROPERTIES

cardsfinders.com

Global Edge Deployment · Jul 2026 – Present

Founder & Full-Stack Edge Systems Architect

Sovereign Digital Property

- Conceived, architected, and deployed a financial tools comparison platform hosted globally via Cloudflare Pages and Workers.
- Engineered custom edge DNS configurations, Cloudflare email routing rules, and sub-second Time-to-First-Byte (TTFB) asset delivery pipelines.
- Implemented responsive client-side UI with modern SEO architectures, achieving top-tier Core Web Vitals and zero server runtime compute costs.

Astrological Resonance: 2nd House Venus NB sovereign resource monetization.

myuselessweb.com

Global Edge Deployment · Jan 2024 – Present

Creator & Edge Infrastructure Engineer

Interactive Web Experiment

- Built and deployed an ultra-minimalist, high-traffic interactive web discovery platform deployed over Cloudflare edge infrastructure.
- Optimized DOM rendering cycles and assets to guarantee near-instantaneous global edge delivery (<50ms) across all devices.

Astrological Resonance: 10th House Gemini Saturn viral structural experimentation.

III. RESEARCH PUBLICATIONS, APPLIED AI & ROBOTICS SYSTEMS

Automated Edge Vision & Retail Checkout System (IEEE Xplore)

IEEE Doc ID: 10627276 · Published Mar 2026

Published Lead Author

Embedded Edge AI & Computer Vision

- Architected an automated item detection and billing pipeline using custom YOLOv5 models deployed directly onto ARM-based Raspberry Pi hardware.
- Implemented Post-Training Quantization (INT8) via ONNX Runtime to balance activation scales, preserving <1% mAP loss while enabling sub-second inference without expensive cloud GPUs.

Astrological Resonance: 3rd House Ketu Scorpio Vargottama edge quantization mastery.

Deterministic Multi-Agent Fleet & Dynamic Failover Routing

Antigravity Architecture · 2026

Applied AI Systems Architect

Autonomous Agent Orchestration

- Engineered an autonomous dual-agent pipeline (Agent 1 Scout & Agent 2 LaTeX Tailor) governed by strict boundary contracts codified in AGENTS .md.
- Implemented dynamic multi-tier failover routing (Google Gemini Flash → Groq API → Local LLMs) with Pydantic v2 guardrails and Telegram webhook telemetry.

Astrological Resonance: 10th House Gemini Saturn deterministic agent state machines.

Sensorless Solar Photovoltaic Tracking System

Nagpur · Mar 2026

Hardware & Embedded Systems Designer

Clean Tech & Autonomous Control

- Invented a closed-loop solar tracking mechanism using the photovoltaic output voltage of the solar panels themselves to detect light gradients, completely eliminating external light-dependent resistors (LDRs).
- Programmed microcontroller actuation algorithms to drive servo motors toward peak power points, optimizing energy harvesting efficiency.

Astrological Resonance: Pure 1st House Virgo Lagna sensorless mathematical elegance.

HiWonder MentorPi M1 Autonomous Mobile Robot (ROS2)

Robotics Platform · Jul 2026

Robotics & Autonomous Navigation Engineer

Mobile Robotics

- Assembled, flashed, and configured the HiWonder MentorPi M1 mobile robot running on a Raspberry Pi 5 under Robot Operating System 2 (ROS2).
- Integrated monocular camera vision pipelines, battery power management, and SLAM navigation algorithms for autonomous indoor path planning.

Astrological Resonance: Direct alignment with AMR / Forward Deployed Robotics roles.

Wokwi Arduino Gas Detection Telemetry System

Embedded Simulation · Dec 2025

Embedded Systems Developer

Safety & Sensor Telemetry

- Built a live, fully verified digital simulation of an automated gas leakage detection and alarm system using Arduino Uno and MQ-2 gas sensors on Wokwi.
- Programmed threshold-triggered interrupt routines, audible buzzer alarms, and real-time visual status updates.
